

## **PADS-006F: Depression and Political Ideology**

Follow to PADS 006 Posted on Twitter on August 3, 2023

REPORT FOLLOW UP: Are men and white people who have woke/cynical political beliefs more depressed?

White people that believe racial minorities have no hope for success are severely depressed—more depressed than Black or Hispanic people who think similarly.

Men who believe women have no hope for success have higher depression scores than women who think similarly.
