	Other	293	18.7	18.7	100.0
	Total	1567	100.0	100.0	

Researcher Note: We asked 10 accuracy/attitudinal questions related to the Israel-Hamas War. During the initial phase of data collection (approx. 15 minutes), there was an option of "I don't care" for 8 of the questions; due to the ambiguous nature of what that response means, data collection was stopped, the option was removed, then data collection resumed. Those responses have been coded as "missing" (see below). We did not find meaningful demographic differences between people in the first and second phase of data collection. All responses were collected on October 16th. 1Q verifies that participants are real by requesting a copy of their driver's license (among other details); however, the researchers for this study did not have access to identifiable information.

Statistics

		The Jewish people have no historical claim to land in the Middle East.	The Israeli government advocates for white supremacy.	In conflicts, Israelis generally kill far more Palestinians than Palestinians kill Israelis.	Most Israelis support Hamas.	The founding charter of Hamas (the ruling government of the Gaza Strip in Palestine) called for the destruction of Israel.	Hamas had a moral obligation to attack Israel on October 7, 2023, to defend itself.
