## Participant Filter

This study included 731 participants. For the analyses presented in this report, 131 participants from the original sample were filtered out because they did not consistently identify as liberal, moderate, or conservative on social and fiscal issues.

## Figure Statistics

In order to examine differences between self-identified Liberals, Moderates, and Conservatives we ran

## Estimated Marginal Means

## 1. Consistently Liberal, Moderate, or Conservative

## Estimates

| Measure: MEASURE_1 |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Consistently Liberal, Moderate, or Conservative | Mean | Std. Error | 95\% Confidence Interval |  |
|  |  |  | Lower Bound | Upper Bound |
| Liberal | $2.692^{\text {a }}$ | . 070 | 2.555 | 2.829 |
| Moderate | $2.404^{\text {a }}$ | . 056 | 2.294 | 2.515 |
| Conservative | $2.434^{\text {a }}$ | . 063 | 2.311 | 2.558 |

a. Covariates appearing in the model are evaluated at the following values: What
is your age in years? $=46.08$.

## Pairwise Comparisons

Measure: MEASURE_1

| (I) Consistently Liberal, Moderate, or Conservative | (J) Consistently Liberal, Moderate, or Conservative | Mean Difference $(\mathrm{I}-\mathrm{J})$ | Std. Error | Sig. ${ }^{\text {b }}$ | 95\% Confiden Difference ${ }^{\text {b }}$ <br> Lower Bound | Interval for Upper Bound |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Liberal | Moderate | . $288{ }^{*}$ | . 089 | . 001 | . 113 | . 463 |
|  | Conservative | . $258{ }^{*}$ | . 095 | . 007 | . 071 | . 444 |

| Moderate | Liberal | $-.288^{*}$ | .089 | .001 | -.463 | -.113 |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |
|  | Conservative | -.030 | .085 | .726 | -.197 | .138 |
| Conservative | Liberal | $-.258^{*}$ | .095 | .007 | -.444 | -.071 |
|  | Moderate | .030 | .085 | .726 | -.138 | .197 |

Based on estimated marginal means
*. The mean difference is significant at the .05 level.
b. Adjustment for multiple comparisons: Least Significant Difference (equivalent to no adjustments).

## Univariate Tests

Measure: MEASURE_1

|  | Sum of Squares | df | Mean Square | F | Sig. | Partial Eta Squared |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| Contrast | 8.625 | 2 | 4.313 | 5.776 | .003 | .019 |
| Error | 439.734 | 589 | .747 |  |  |  |

The F tests the effect of Consistently Liberal, Moderate, or Conservative. This test is based on the linearly independent pairwise comparisons among the estimated marginal means.

## 2. InfoSources

## Estimates

| Measure: | MEASURE_1 |  |  | 95\% Confidence Interval |  |

## Homogeneous Subsets

How often do you use the following sources of information: - Friends

|  |  |  | Subset for alpha $=$ |
| :--- | :--- | :--- | :--- | :--- |
|  | Consistently Liberal, Moderate, |  | 0.05 |
|  | or Conservative | N | 1 |
| Tukey HSD |  |  |  |
|  | Moderate | 241 | 2.58 |
|  | Conservative | 200 | 2.73 |
|  | Liberal | 159 | 2.84 |
|  | Sig. |  | .087 |

Means for groups in homogeneous subsets are displayed.
a. Uses Harmonic Mean Sample Size = 194.317.
b. The group sizes are unequal. The harmonic mean of the group sizes is used. Type I error levels are not guaranteed.

How often do you use the following sources of information: - Family

|  |  |  | Subset for alpha $=$ |
| :--- | :--- | :--- | :--- | :--- |
|  | Consistently Liberal, Moderate, |  | 0.05 |
|  | or Conservative | N | 1 |
| Tukey HSD $^{\mathrm{a}, \mathrm{b}}$ | Liberal | 159 | 2.96 |
|  | Moderate | 241 | 3.15 |
|  | Conservative | 200 | 3.16 |
|  | Sig. |  | .180 |

Means for groups in homogeneous subsets are displayed.
a. Uses Harmonic Mean Sample Size $=194.317$.
b. The group sizes are unequal. The harmonic mean of the group sizes is used. Type I error levels are not guaranteed.
