## Supplemental Materials for Report \#: SPAS-010

## Participant Filter

The full study included 731 participants. For the analyses presented in these figures, 131 participants from the original sample were filtered out because they did not consistently identify as liberal, moderate, or conservative on social and fiscal issues. As always, feel free to contact research@skeptic.com with follow-up questions.

|  |  | Moderate | . 10386 | . 11003 | . 613 | -. 1550 | . 3627 |

*. The mean difference is significant at the 0.05 level.

Homogeneous Subsets

Bias_Higher_Rev

|  | Consistently Liberal, Moderate, or |  | Subset for alpha $=0.05$ |  |
| :--- | :--- | :--- | :--- | :--- |
|  | Conservative | N | 1 | 2 |
| Tukey Bab | Moderate | 241 | .7303 |  |
|  | Conservative | 200 | .8500 |  |
|  | Liberal | 159 |  | 1.1572 |

Means for groups in homogeneous subsets are displayed.
a. Uses Harmonic Mean Sample Size = 194.317.
b. The group sizes are unequal. The harmonic mean of the group sizes is used. Type I error levels are not guaranteed.

Bias_Lower_Rev

|  |  |  | Subset for alpha $=0.05$ |
| :--- | :--- | :--- | :--- |
|  | Consistently Liberal, Moderate, or Conservative | N | 1 |
| Tukey $\mathrm{B}^{\mathrm{a}, \mathrm{b}}$ | Moderate | 241 | .7261 |
|  | Conservative | 200 | .8300 |
|  | Liberal | 159 | .9119 |

Means for groups in homogeneous subsets are displayed.
a. Uses Harmonic Mean Sample Size = 194.317.
b. The group sizes are unequal. The harmonic mean of the group sizes is used. Type I error levels are not guaranteed.
